REMARKS

A "Notice of Non-Compliant Amendment" (hereinafter the Notice) mailed April 7, 2004 stipulates applicants' Amendment filed March 26, 2004 was non-compliant because it failed to meet the requirements of 37 CFR 1.121 in that a complete listing of all the claims was not present in the Amendment.

Applicants are filing herewith a Response to the Notice, which corrects the defects indicated in the Notice. In particular, the entire "In the Claims" section is resubmitted with claims 67-104 and 119-200 now canceled and indicated as such in the section.

CONCLUSION

In light of the above Remarks and previously filed Amendment dated March 26, 2004, it is respectfully submitted that the present application is now in a proper condition for allowance and such action is earnestly solicited. If any minor issues should remain outstanding after the Patent Examiner has had an opportunity to study the above Remarks, the Patent Examiner is respectfully requested to telephone the undersigned patent attorney so that all such matters may be resolved and the application be placed in a condition for allowance without the necessity for issuance of another Official Action.
